

GENERAL USE INFORMATION – READ ENTIRE LABEL BEFORE USING THIS PRODUCT

LIQUID CALCIUM WITH POTASSIUM
TriSept™ 7-0-7 made with Furst® Technology

GENERAL INFORMATION

TriSept™ 7-0-7 is a true solution containing nitrogen, potassium and calcium which are readily available when applied to soils and plants. TriSept 7-0-7 is a unique product having both calcium and potassium. Each element is important for high quality and extended shelf life in fruits and vegetables and to produce maximum yields and quality in virtually all crops.

TriSept 7-0-7 is recommended to be used to complement a complete, Furst-Class nutritional program. As a foliar, TriSept 7-0-7 can be used as a supplement between Furst-Class Concentrate applications or in conjunction with Furst-Class applications.

COMPATIBILITY: TriSept 7-0-7 may be applied separately or in conjunction with most pesticides and with other fertilizers. The addition of a surfactant or wetting agent is recommended for improved coverage and penetration. A compatibility test is recommended if the desired combination has not been previously used. In this situation, before general applications, apply the spray solution to a small test area of the foliage to determine any undesirable phytotoxic effects.

DIRECTIONS FOR USE

CONSULT YOUR LOCAL FERTIZONA REPRESENTATIVE OR OTHER AGRICULTURAL SPECIALIST FOR SPECIFIC CROP RECOMMENDATIONS.

TriSept 7-0-7 is a foliar nutrient. Foliar applications of TriSept 7-0-7 on fruits and vegetables usually are made toward the end of the growing season to enhance solids and add color. On small grains, row crops and forages, applications may be made at various times. See a sales representative for specific recommendations. It is highly recommended that a soil analysis be used to determine specific application rates.

**SUGGESTED APPLICATION RATES FOR ONE GROWING SEASON
(GALLONS PER ACRE) IN THE ABSENCE OF A SOIL TEST:**

TREE AND BRAMBLE FRUITS, NUT TREES AND OTHER FRUITS: *Foliar Application:* 2–4 gals. Apply ½–1 gal. per application.

FIELD AND ROW CROPS: *Foliar Application:* 2–3 gals. Apply ½–1 gal. per application.

VEGETABLE CROPS: *Foliar Application:* 2–4 gals. Apply ½–1 gal. per application.

TURF AND GOLF COURSES: *Foliar Application:* 3–4 gals. Apply 1–2 qts. per application.

DO NOT MIX WITH PRODUCTS CONTAINING PHOSPHORUS!

NET CONTENTS: 5 gals. (18.92 L), 59 lbs. (26.6 Kg)
