

# 0-52-0 Phosphoric Acid

## Benefits of use:

- **Highest phosphate content of any liquid fertilizer**
- **Acidic product (pH<1) that provides buffering of irrigation water**
- **Excellent product for fertigation**

0-52-0 provides a concentrated source phosphorus for both warm and cool season turf.

**Phosphoric Acid** is an ideal choice for a starter fertilizer following the overseeding process or for the use of establishing new turf.

**Phosphorus** is utilized in the formation of nucleic acids, the storage and transfer of energy, while also increasing seedling vigor and root development.

Prior to mixing with other micronutrients, a jar test is recommended to test for compatibility, do not mix with fertilizers containing **calcium**.

## Guaranteed Analysis:

Available Phosphorus ( $P_2O_5$ )	52.0%
-----------------------------------	-------

## Weight per gallon:

14.20 lbs.

Each gallon of 0-52-0 supplies 7.38 lbs. of  $P_2O_5$

## Recommended application rates:

¼ lb. P/1000 ft <sup>2</sup>	1.48 gallons/acre
½ lb. P/1000 ft <sup>2</sup>	2.95 gallons/acre
1.0 lb. P/1000 ft <sup>2</sup>	5.90 gallons/acre

Fertizona makes no claims beyond suggested amounts. These rates are only suggestions and should only be used as guidelines.
