

Contains Non-Plant Food Ingredient:  
humic and fulvic acid derived from leonardite

### DIRECTIONS FOR USE

**FERTIGATION APPLICATIONS:** Please consult your local Fertilzona Rep.

**FOLIAR APPLICATIONS:** Apply 1-3 gal/acre of BLACK 29 per application with fertilizer using sufficient water for uniform coverage of the crop.

(See instructions on this label: PREPARING TANK MIX SOLUTIONS.)

**SOIL APPLICATIONS:**

*In-furrow:* apply 1-2 gal/acre of BLACK 29.

*Drip-irrigation:* apply 1-2 gal/acre of BLACK 29.

Apply banded, in-furrow, side-dressed, or through flood, furrow or drip irrigation. (See instructions on this label: PREPARING TANK MIX SOLUTIONS.)

### PREPARING TANK MIX SOLUTIONS

Thoroughly clean all spray mixing and application equipment prior to and following each use. Unless directed by the mixing instructions on the product label being used with BLACK 29 follow these procedures:

1. Add the desired amount of water if required to the tank and begin agitation. Slowly add BLACK 29 to the tank while continuing to agitate.
2. Add liquid fertilizer. **Do not tank mix with herbicides.** Do not mix BLACK 29 directly with undiluted tank mix partners until you have "jar tested" in a separate container the proportionate amount of BLACK 29 to make sure the products are compatible prior to tank mixing. Agitate and let stand 10 minutes.
3. Continue filling while agitating until all added products are thoroughly mixed into spray solution.

Guaranteed and Distributed by:  
FERTILIZER COMPANY OF ARIZONA, INC.

**BLACK 29 is a premium liquid humic acid and fulvic acid containing freshwater carbons that act as a fertilizer enhancer, increasing the availability and uptake of nutrients.**

### 29-0-0 GUARANTEED ANALYSIS

Total Nitrogen (N).....	29.00%
7.02% Ammoniacal	
7.02% Nitrate	
14.96% Urea	

Derived from: urea, ammonium nitrate, and humic acid derived from leonardite.

*SDS available upon request.*

*Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>*

BLACK 29 can be used as a standalone application or as part of a standard fertility program. The BLACK 29 humic extraction process removes the insolubles found in humic acid leaving the highest quality humic acid available.

BLACK 29 can be applied to most field and row crops, vegetable and cucurbit crops, nut trees, grapes, olives, and citrus. BLACK 29 is specifically designed for soil applications and foliar use.

## WARNING

### KEEP OUT OF REACH OF CHILDREN

May be harmful if swallowed. May cause irritation of eyes, nose, throat, or skin. Avoid contact with eyes, skin or clothing. In case of contact with eyes, flush with plenty of water. Consult a physician if irritation persists.

**NOTICE: May cause staining on handler's apparel and porous surfaces.**

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with direction under normal conditions of use. Neither this warranty nor any other warranty of merchantability or fitness for a particular use, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.
